Subject: West Fertilizer information out of OTIS - Shows and ICIS

List of Addressees was provided to me by Monica Smith.

Everyone: Monica Smith called me this morning asking that I look up the West Fertilizer facility in the data bases I have access to.

ICIS shows one inspection under the CAA 112r program on 3/16/2006, and an enforcement action under the same program on 8/14/2006 (ICIS Enf Identifier #06-2006-35820). Bob Goodfellow was the Enforcement Officer.

Using OTIS, which gives a 5-year history (both state and federal) of inspections, enforcement, and compliance status. There was no useful information in OTIS. There were three listings for this facility, but all three listings show no inspections or enforcement in the last 5 years.

Below are is the address information and FRS IDs. The only programatic ID listed is for the CAA RMP program. Since it doesn't appear that the facility has been inspected by the other media, it makes sense that there is no other programatic ID.

Facility Permits and Identifiers
